

3100 Lumens XGA DLP (White) Projector

PJD5255L

The brand new LightStream™ Projector PJD5255L integrates elegant style and intuitive design, HDMI & VGA connectivity and best in class colour and sound performance thanks to exclusive SuperColor™ and SonicExpert™ technology. The PJD5255L is equipped with 3,100 lumens brightness, a 6-segment color wheel, high resolution 4:3 (XGA1024 x 768) and 10,000:1 contrast ratio for great image quality even in spaces with high ambient light. Eco mode further reduces power consumption by up to 70% and extends the lamp life by up to 10,000 hours.

Premium Curved Design With Intuitive Keypad

With its dot texture finish and curved edges, this LightStream Projector stands out from the competition. A tactile keypad provides ease of use with raised and concave buttons, plus a central reference button. These assist in making set up easier in dark environments or if the projector is ceiling mounted.

HDMI for One-Cable Connectivity to HD Devices

The best and easiest way to connect to most modern devices is through an HDMI (High Definition Media Interface) cable. HDMI carries both video and sound thus limiting the requirement to attach an additional audio cable, as is often the case with other input options.

SuperColor™ projectors offer color accuracy levels

Conventional projectors offer low-quality images

SuperColor™ Best in Class Colour Accuracy

ViewSonic's exclusive SuperColor™ Technology delivers superior colour range than competitor projectors, ensuring that users enjoy more realistic and accurate colours. With an exclusive colour wheel design and dynamic lamp control capabilities, SuperColor™ Technology projects images with true-to-life colour performance in all scenarios, also reducing eye fatigue in bright and dark images.

SonicExpert™ Clear, Comfortable and Louder Sound

Following groundbreaking and exclusive speaker developments - transducer and chamber re-design - LightStream projectors deliver superior audio performance than competitor projectors. The compact yet powerful speakers sound stronger and enable sound to travel further, powerful enough to fill your meeting room with wall-to-wall sound.

Bright Images for Any Environment

Packed with 3,100 lumens the PJD5255L is guaranteed to produce bright images in any environment - even in rooms with high ambient light. The impressive 10,000:1 contrast ratio also ensures that dark and bright areas are more black and white and less grey in appearance.

Hide Unsightly Cables

An optional cable management hood connects onto the back of the projector to hide unsightly cable clutter and exposed ports.

Quickly Access Your Favourite Features With “My Button”

Finding a function through the on-screen menu can be time-consuming. The “My Button” button on the remote control is a programmable shortcut button that can be user-programmed to launch any desired function.

Auto Power On / Off

With 'Auto Power On' enabled, once a cable is connected and signal detected, LightStream projectors will power on automatically with effortless start-up. When no signal is detected, the projector will automatically power off after a user-defined amount of time - saving electricity cost, reducing energy consumption and extending the life of the projector.

3D Compatible for Exciting Visual Effects

You'll have amazing 120Hz 3D capabilities at your disposal with this LightStream Projector. All that's required to unlock this stunning 3D are optional ViewSonic 3D active shutter glasses (PGD-350) and a 3D source. Unleash a vivid 3D experience with the ViewSonic LightStream projectors today.

Technical Specifications

Product

Specification		
Resolution		XGA(1024 x 768)
Brightness (ANSI Lumens)		3,100
Contrast (with Dynamic Contrast Ratio)		10,000:1
Lamp Hour (Normal / Eco / DynamicEco)		N/A
Throw Ratio in Meters (Wide ~ Tele)		1.95 ~ 2.15
Optical Zoom		1.1x
Digital Zoom		2.0x
Screen Size		30" ~ 300"
Projection Offset		130% +/- 5%
Display Colours		1.07 Billion Colours

Keystone	+/- 40° (Vertical)
Noise min (Normal / Eco)	32dB/28dB
Speaker	2W x 1

Input Connectivity	HDMI In	1
	VGA-in	1
	Component Input	shared with VGA-in
